

GUIDE TO FRESHWATER FISHING in Norfolk and Suffolk

NRA

*National Rivers Authority
Anglian Region*

INTRODUCTION

This booklet is a guide to some of the angling clubs controlling waters on the rivers Ant, Bure, Thurne, Yare and Waveney within Norfolk and Suffolk with maps to show each stretch of water. The list of club names is not exhaustive and the Anglian Region of the National Rivers Authority would welcome any further information from angling organisations controlling stretches of water not listed. It is important that before fishing a club is contacted to check membership details or the availability of day tickets.

The maps show the course of rivers and drains with major towns and villages marked for reference, as well as some of the important access roads. The NRA is grateful to angling clubs for their help in compiling this guide and would appreciate any up-dates on waters controlled or changes in contact points for the club.

Fishing Licences

To fish the rivers shown in this guide every angler aged twelve years and older must possess a current National Rivers Authority Anglian Region Rod Licence. Licences are available from most fishing tackle dealers or may be obtained by writing to the following office:

*National Rivers Authority
Anglian Region
Kingfisher House
Goldhay Way
Orton Goldhay
Peterborough PE2 5ZR
Telephone: 0733 371811*

Licences are valid for the calendar year. Concessionary licences are currently available to juveniles (12-15 years inclusive) and to retired or disabled persons. A 7-day licence is also available. A maximum of two rods may be used on any occasion and a valid licence must be held for each rod in use. It must also be remembered that it is important to obtain the necessary permission before fishing on privately owned waters or on fisheries controlled by angling clubs.

Anglers should take care to avoid damage to banks and must not discard litter, fishing line or weights.

Anglers must observe fisheries byelaws and relevant Acts at all times.

Some of the principal regulations affecting anglers are:

Close Seasons – rod and line

- ★ Brown and rainbow trout: 30th October to 31st March inclusive except rainbow trout in totally enclosed waters which are exempt.
- ★ Salmon and migratory trout: 29th September to 28th/29th February inclusive.
- ★ Coarse fish: 15th March to 15th June inclusive.

Anglers must not

- ★ Introduce any fish without written permission from the National Rivers Authority.
- ★ Remove more than two trout from rivers or two coarse fish from any water in any one day, except for livebaiting where a maximum of ten is permitted (no limit for minnow and bleak).
- ★ Use live bait in any waters other than water from which the fish were taken.
- ★ Fish for eels during the coarse fish close season except as permitted in the byelaws.
- ★ Fish for salmon and trout during the coarse fish close season with any lure or bait other than an artificial fly.

TROUT FISHING - STILLWATERS AND RIVERS

ABBOTS HALL

Advisory Committees

Three Area Fisheries Advisory Committees serve the Anglian region of the NRA. They provide a direct link between anglers and the regional organisation.

The Committees are consulted on a wide variety of policy and local fisheries matters and are represented on the main Regional Fisheries Advisory Committee, a statutory committee of the NRA.

Local Advisory Committee representatives for the Norfolk and Suffolk area are:-

Mr. P.I. Peachey-Edwards, Badgers Oak, Nounsley Road, Hatfield Peverel, Chelmsford, Essex.CM3 2NG

Mr. S.E. Alden, 19 Mariners Lane, Norwich. NR1 3AF

Pollution

Anglers who see any pollution or notice dead fish in the Norfolk and Suffolk area should call or notify the appropriate NRA area office (see telephone directory under National Rivers Authority) or Regional Headquarters, Kingfisher House, Orton Goldhay, Peterborough PE2 5ZR where there is a 24 hour call facility (Tel: 0733 371811).

Lead weights

Remember - It is **ILLEGAL** to sell or use lead weights of greater than 0.06 grams and less than, or equal to, 28.35 grams. Maximum penalty for illegal use is £1,000.

Overhead power lines are extremely dangerous. Please check before choosing where to fish and do not take unnecessary risks.

The information given in this publication is as up-to-date as possible at the time of going to press but the publishers cannot accept any responsibility for information which subsequently changes or is shown to be incorrect.

The National Rivers Authority

Guardians of the Water Environment

The National Rivers Authority is responsible for a wide range of regulatory and statutory duties connected with the water environment.

Created in 1989 under the Water Act it comprises a national policy body coordinating the activities of 10 regional groups each one mirroring an area served by a former regional water authority.

The main functions of the NRA are:

- | | |
|---|--|
| Water resources | — The planning of resources to meet the water needs of the country; licensing companies, organisations and individuals to abstract water; and monitoring the licences. |
| Environmental quality and Pollution Control | — maintaining and improving water quality in rivers, estuaries and coastal seas; granting consents for discharges to the water environment; monitoring water quality; pollution control. |
| Flood defence | — the general supervision of flood defences; the carrying out of works on main rivers; sea defences. |
| Fisheries | — the maintenance, improvement and development of fisheries in inland waters including licensing, re-stocking and enforcement functions. |
| Conservation | — furthering the conservation of the water environment and protecting its amenity. |
| Recreation | — navigation responsibilities in three regions — Anglian, Southern and Thames and the provision and maintenance of recreational facilities on rivers and waters under its control. |
